Counsel: James Curtis
Landfill Manager: Paul Payne
Clerk of the Board: Deborah Rivas

MEMORANDUM

TO: LASSEN COUNTY REFUSE COLLECTION CAN
CUSTOMERS

FROM: TOM VALENTINO 

DATE: JULY 2011

REGARDING: SWITCH TO 35 GALLON WHEELED CARTS

As many Lassen County residents know, a new company will be collecting trash and recyclables starting January 2012. C&S Waste Solutions was awarded the collection contract earlier this year. The company will offer several new services and improve waste and recyclable material collection efficiency. We think you will be pleased when they start collection services during the first week of January 2012.

During December this year, C&S Waste Solutions will be distributing new waste and recyclable material carts. Customers who currently provide their own trash can will be issued a 35 gallon wheeled cart. Use of a 35 gallon cart will allow C&S Waste Solutions to implement an "automatic" collection system, where the driver remains in the cab of the truck and a mechanical arm "grabs" the cart and empties it's contents into the truck body. In addition to improving collection efficiency, the automatic collection system helps avoid employee injuries.

We expect you will find that the 35 gallon wheeled cart is much easier to handle than a regular trash can. And the cost of weekly trash collection will remain about the same as you are currently paying.

If you have any questions or concerns about the switch to 35 gallon carts, please contact the Lassen Regional Solid Waste Management Authority at the number listed below.
